LIGHTNING'S GLARE.

Furnished Light For Americans to Shoot By.

BIG BATTLE AT MANILLA.

Spaniards Were Repulsed With Large Loss.

MANILA, Aug. 9, (special cable to the News)—On the night of July 31, the Spanish troops, 3,000 strong, attacked the American forces at Manila, near 7000. The Americans were twice repulsed and the Spaniards, killing 200 and wounding 300 of the enemy. The Americans lost 100 men, mostly our soldiers killing the enemy by the light of the lightning flashes. The Spanish forces were repulsed twice on the nights of the 1st and 2nd of August but were again repulsed with heavy losses. The American loss was 13 killed and 50 wounded. A general attack is expected. During the engagement the rebels were neutral. The Americans with three transports have arrived.

DONS WANT TO SWAP.

Washington, D. C., Aug. 9, (Special to the News)—Spain's peace reply has not yet been translated. It is said that the terms will be accepted, but they are discussed in secret. The news is awaited to see that Cuba is not turned over to the insurgents and that Spain's Pacific possessions are awarded to Porto Rico.

LATE ARMY NEWS.

WASHINGTON, D. C., August 9, (Special to the News)—All troops ordered to Porto Rico yet unembarked have been

ordered stopped. The Kentucky troops are being held as Miles has enough troops to hold the island. No other regiments will be sent unless the situation demands it.

The Kentucky troops will have possession of Porto Rico by Saturday.

The military camp in the mountains will be moved to the coast. Major cables that 1,000 Spanish prisoners have been started for home the other afternoon.

A HOT TIME.

Colored Peopple Celebrate Emancipation Day.

The colored population was in its glory yesterday. A big picnic was held at Lazear's, a grocer, who was the caterer. Port Leggs U. B. F. and Marion Temple S. M. Y. C. ceremonies of the day started with a grand free street parade. The principal attraction was Alex Robinson mounted upon a fiery charger, that had been trained and carefully selected for the whole thing.

Then there was music to the hand. There was a display of musical talent belongs to Cloverport and the strains of melody that came from its horns and poppies were heard throughout the town and drowned the tronies of the people.

We are unable to tell what time of day the picnic began, but it was about 11 o'clock. "Annie Lang" and "A Hot Time in the Old Town" were the grand finale.

The picnic was grand beyond description. There was a profusion of green, batteaux and red and yellow naeas as well as flowers and fruit.

The picnic dinner was almost a realization of paradise there being chicken and watermelon galore.

Notwithstanding the fact that he had been terribly stabbed in five places, Hale Hall, of Louisville, was still on his feet and drawing the crowd as he was running across the street. The injured passed through the hands of Dr. H. E. Evans, of Henry County, and Dr. J. E. Evans.

At 12 o'clock Graham was taken to Henry County across the street and Dr. Watkins was summoned.

After a long and difficult operation Dr. Watkins had his wound dressed.

August second filled Eugene Greenwood with joy—came a bouncing boy who was to make a splendid farmer.

August third was a gain day to Carl Daniels, he found this girl that fills his paper's heart with joy that perhaps understanding.

He waived examination and was int-

WILD AND WOOLLY

Was Saturday Night's Scrap on Wall Street.

One Man Severely Stabbed and Another Shot.

AGGRESSOR PUT UNDER BOND.

About 11 o'clock Saturday night an alteration arose in Beavin's saloon on Wall street that resulted the stabbing of George Graham and the shooting of S. M. Y. C.

From what can be learned it seems that Graham, who is a tenant on Wm. Gillett's farm on the Stephensport road, was in the saloon. Graham, it is said, ordered Hale to make him noise and on the failure to do so, attempted to hit him.

In the struggle that followed Hale, it is alleged, used a knife and Gillett, a long-handled scimitar-like weapon.

The picnic dinner was almost a realization of paradise there being chicken and watermelon galore.

Notwithstanding the fact that he had been terribly stabbed in five places, Hale Hall, of Louisville, was still on his feet and drawing the crowd as he was running across the street. The injured passed through the hands of Dr. H. E. Evans, of Henry County, and Dr. J. E. Evans.

under \$300 bond by his wife Judge William. Wm. Gilbert became his surety and he was released.

ADDITIONAL LOCAL.

NAY MAREN.—Do you need a lantern to bind the pumpkins in your cornfield, or a lantern to bind the pumpkins in your garden?

Miss Jenny Grant, of Falls of Rough, came to the city Tuesday.

She will be the house of Mr. and Mrs. G. W. Smith.

Mr. Goss T. Luckett, Ury Woodson and Mrs. W. M. Rindfuss of Owensboro, are here, and Mr. and Mrs. Washington Hoyt, of Boston.

Rev. W. B. Rutledge will commence, Saturday, a protracted meeting at Gonville, a small town in the county, in honor of Rev. Westcott Brown, of Baltimore, Md.

Mr. R. S. Thompson and two daughters, Mrs. H. H. Thompson and Robin, Mrs. Edward Livers and sister, Miss Allen, of Paris, are spending a week at the guest house of Dr. and Mrs. Brown.

Mr. Goss Rhodes, one of this county's most substantial and well-to-do farmers, died last Tuesday at his home in Glen Haven. He was 65 years old.

He had been failing for the past year and his death was due to a general paroxysm.

In the struggle that followed Hale, it is alleged, used a knife and Gillett, a long-handled scimitar-like weapon.

The picnic dinner was almost a realization of paradise there being chicken and watermelon galore.

Notwithstanding the fact that he had been terribly stabbed in five places, Hale Hall, of Louisville, was still on his feet and drawing the crowd as he was running across the street. The injured passed through the hands of Dr. H. E. Evans, of Henry County, and Dr. J. E. Evans.

DELIGHTFUL FUNCTION.

The one of the smallest as well as one of the most delightful social functions of the summer is the annual picnic given by Mr. W. G. Smith last Friday morning in honor of his sister, James C. W. Moorman, G. W. Shiroi, A. O. Evans, W. H. Bowmer, A. B. Smith, P. W. Fraim, and the Misses Jennie Warfield, Elizabeth Sullivan, Margaret Ethel, and Mary Moore, and Arthur and Marion and Miss Edna Evans.

The towns from 9 to 12 a.m.

An Approaching Wedding.

The many friends of Mr. and Mrs. Bill Winchell, of Hobart—cause—a fine home and a large family.

August second filled Eugene Greenwood with joy—came a bouncing boy who was to make a splendid farmer.

August third was a gain day to Carl Daniels, he found this girl that fills his paper's heart with joy that perhaps understanding.

He waived examination and was int-

Herself Thal Captured.

Web Shadwick, young in years and old in crime, was arrested at Hardinville Friday by Sheriff V. C. Burton on a charge of mail robbery.

When this had been done the city marshal placed Shadwick under arrest and locked him up in jail.

On Tuesday he was charged with the purchase and cutting while in the heat of passion.

He was tried and found guilty.

He was sentenced to the state penitentiary for 10 years.

The towns from 9 to 12 a.m.

Wade Johnson Pale Dead.

High Johnnie Tate, the noted deity who has been one of the characters of this town for years past, died last Thursday.

He was 77 years of age. A number of white people as well as those of his own race mourn his loss.

Wade Johnson Pale Dead.

High Johnnie Tate, the noted deity who has been one of the characters of this town for years past, died last Thursday.

He was 77 years of age. A number of white people as well as those of his own race mourn his loss.

The towns from 9 to 12 a.m.

Bought 6,000 Bushels.

On the 1st the local millers have purchased about 6,000 bushels of wheat from the farmers in this section since threshing began. The farmers have improved it so much that it is now one of the best in the country.

THE BRECKENRIDGE NEWS.

JNO. D. AND V. G. BABBAGE, Editors and Proprietors

WEDNESDAY, AUGUST 10, 1898.

SIX PAGES.

A GOLDEN OPPORTUNITY.

Gloverport now has a brilliant opportunity to become an educational center or more than local renown. Possessing, as she does, the healthiest and most beautiful site on the Ohio river, a citizenship that is noted for its practice of all the civic virtues, and a school building that is a credit to the town, this city, more than others in this section, is adapted by its environments and facilities to the requirements of a seat of learning. We have churches and a God-fearing people. The moral tone of the community is exceptionally high. Now that we have secured the services of Professor Hancock as principal of our school we should see to it that steps be taken to aid him in making his work here valuable to the state.

A special tax should be voted that will yield sufficient revenue to maintain a nine month's school. Were this done it would attract to Gloverport a number of well-to-do farmers who would move in from the country and make this their home that they might educate their children. The acquisition of so desirable an element would be of incalculable good. It would create a demand for the best class of rental property. It would enhance realty values. This would be the means of increasing by thousands of dollars annually, the trade of our merchants.

A good school advances population.

A good school dispels ignorance and promotes enlightenment.

A good school elevates the standard of public morals.

A generous expenditure of money for educational purposes is the best investment that a community can make.

These are truths and if we ignore them we are standing in our own light. Let us awake to our opportunities and give such financial aid as will make this the best school in Kentucky. It will be heralded upon the waters that will bring profitable returns.

The eagle's battle cry is drowned by the cooling of the dove's peace.

Now, Dave Smith is of the opinion that the income tax is heaven's first law.

LEXINGTON is growing so fast that it keeps people hustling to keep up with it.

PORO RIO promptly notified Miss Columbia that it was a case of "Barkie is within."

Tax good road movement in Breckinridge county is a highway that will lead to great prosperity.

SINCE Cleveland has started to raise poultry on his Princeton farm, he has learned that chicken come home to roost.

No one county in the state is better adapted to dairy farming than this, and as Col. Mulberry Nease says: "There's millions in it."

BEAUTIFUL crops and the sun of prosperity are the pathway of the farmer—a bright and pleasant one to follow in fair old Breckinridge.

The number of Gloverport boys who participated in the battle of Santiago demonstrates that our patriotism is not born blind.

MAM'S EODLESS triumphal march through Puerto Rico is as brilliant a military exploit as Joshua's operations against the city of Jericho.

Spain's July in according to Uncle Sam's peace terms would indicate that he is equipping with a dynamic bomb or preparing a leather to fall on.

TAX nine-year-old Glasgow, Ky., man, who enlisted the other day, took a long time to make up his mind and decide that life was not worth the living.

KENTAL property is scarce in Gloverport and the man who takes advantage of the opportunity to erect a few dwellings will find it a profitable investment.

GLOVERPORT's prestige as an educational center will be built up and maintained if the people give Prof. Hancock and his faculty the proper encouragement.

CAPTAIN-GENERAL BLANDO at the beginning of the war said that no power on earth could prevent Spain from coming out of the conflict victorious. He was right.

COOPERSTOWN's prestige as an educational center will be built up and maintained if the people give Prof. Hancock and his faculty the proper encouragement.

GENERAL BLANDO at the beginning of the war said that no power on earth could prevent Spain from coming out of the conflict victorious. He was right.

MOTHER'S FRIEND at the beginning of the war said that a curse was pronounced on the human race, but the joy felt by every Mother when she first pressed to her heart her darling and suffering child.

Mother's Friend, and should be avoided, that she may reach the hour when the hope of her heart is to be realized, in full vigor and strength.

MOTHER'S FRIEND so relaxes the system and assists Nature, so that the body can change without Nausea, Headache, Nervous or Mental trouble, body of danger.

Mother's Friend, and the trying hour is robbed of its pain and suffering, as so many happy mothers have experienced. Nothing but "Mother's Friend" does this. Don't be deceived or persuaded to use it.

"Mother's Friend" is the greatest remedy ever given to the human race. Price, \$1.00. W. H. Davis & Co., Whitehaven, Tex. Or drogists at \$1.00, or sent by express on receipt of \$1.00. Dr. Wm. C. Fawcett, Louisville, Ky., has the exclusive rights.

AYER'S PILLS Cure

Dyspepsia

BRANDENBURG.

Miss Ella Hendrich is visiting relatives here.

Miss May has returned to Hardinsburg from a visit to Miss Lill Rhodes.

Miss Annie Bondurant has returned home after a visit to Miss Florine Anderson.

Bowieville and Irvington, we will strike hands this week end and talk some more, too.

Dr. W. B. Pusey, of Louvileville, spent Saturday and Sunday with his father, Dr. D. C. Pusey.

George Woolfolk, of Louvileville, spent Saturday and Sunday with his wife at Mrs. J. W. Lewis.

Mrs. Moremen gave a call last week. The O'Bryan boys furnished the music which was of course good.

Mr. A. C. Burton is at Chicago University. He will not commence the Normal till the last of September.

There will be an excursion from Louvileville to Leavenworth tomorrow (Tues.).

Miss Agnes Mallin and Stella Bole returned from Oberon Sunday. Mr. Gay Gilbert came up for the day yesterday.

Miss Mamie and Netta Sheehey, Lillian Hattie and Lena Nevitt are visiting Miss Jessie Lee Woolfolk, Meade Springs.

Mr. Z. T. Herndon was called to Leitchfield last Sunday to see her daughter, Mrs. Gordon Moorman, who is sick, but not seriously.

Fannie Callicutt Macaulay, that graceful patriotic writer, has interesting news to tell. She is writing a book about her visit to the sun-kissed hills where reside the little city of Gloverport.

Mr. J. R. Trent has information that his sister in Kansas has been married and that her husband was suspected. Mr. Trent goes to Kansas and will employ a detective at Louvileville.

Our sister State across the stream has quarantined against us, on account of diphtheria, for ten days, despite the representations of the citizens. Exaggerated accounts over there do not death itself.

Our own out soldiers from Santiago are to be taken North and treated royally, which speaks volumes for this administration. Generosity and consideration in individuals and in nations are the best basis for a nation.

Mr. W. H. Fawcett and son Frank, of Louvileville, spent Sunday with James Fairleigh at Mrs. J. D. Babbage's. I had just one chat with that Harvard boy, Frank, who is as genial and whole-souled as the elegant father.

Don't you believe to the contrary girl, boys? Education, civilization, reading, knowledge, etc., are paramount to everything else, and it is so every year. Accomplishments are expected now and the only path is hard work and diligent study.

Mr. W. D. Howard and Mrs. George Fyrine are at their parsonage, "The Scar," over. Two of our good neighbors gone and I don't like it a little bit. There is nothing to equal congeniality. Wa have it in our neighborhood to perceive.

Little Hattie and I leave this morning (Monday) for Dr. V. W. Fawcett's, Irvington, on to Mrs. V. G. Babbage's, Hart-dashin, to Gloverport to divide up between Mrs. J. D. Babbage, Mrs. M. V. Duncan and Mrs. R. L. Nawom, but I shall see all of my friends possible in each place and hope they will be sure to come to see me without delay.

Dr. Alexander Nettleroth, of Louvileville, has joined the army. Dr. Nettleroth is a well-known man and has often been a visitor to the family of Dr. D. C. Pusey with Dr. W. B. Pusey. Dr. Nettleroth is a young man of unusual promise and received many honors in the Louisville Medical College where he graduated last May, standing second in a large class.

John Fawcett, of Louvileville, is about my remarks on gossip and tattling. Yes, we do know them and they are invariably people who are incapable of any other conversation, they are so unacquainted with anything else but disagreeable subjects and are so miserable themselves they try to make it an epidemic worse than diphtheria, but they

The Manly Art

of self defense can be practiced with the feet as well as with the arms and hands—not by kicking, oh, no—but by having them correctly shod. only succeed in making themselves miserable.

The diphtheria scare last week was something like the cholera fright in we can remember in the early 50's when we all fled for safer parts. There was three cases reported at the Lucile Home and one in a private family when immediately a panic ensued and fifty-sixty people left. One little girl at the home, Madeleine St. John, died. Mrs. St. John's mother died, but doctor Pusey reported pneumonia with diphtheria. Little Madeleine was a sweet, affectionate little tot and will be missed, especially by little Mabel, her sister. Their mother came up to see them but not until little Madeleine had closed her eyes forever. Mrs. St. John's mother is a widow, Mrs. Agnes, for whom she grieved just as other little ones would do. And Toxins have indeed the same effect. They are relieved. No new cases and the feeling has subsided.

Nancy Hanks, one of the Messenger's brightest stars, has dipped her quill in ink again. She is honest, she is candid and I admire her. She could take Mr. Geddes' vacant chair in the office of the iconoclast and wield the lamented Bran's pen. But Nancy you did cause me to smile when you said you wanted the detectable St. John to preach the gospel to the world. I hope he will do it. Henry Ward Beecher, Talmage is as sensational in his manner of presenting the gospel and as peculiar in his appeals to the people as the noted avenger—only by handles his objectives and adverse to modify drastically. In this he is like his brother inakes of the present, bold and novel indications I ever read. He elicits his ideas in sensational high flown and far fetched similes and metaphors. His whole "plane" is one of hyperbole, and when you am up any one of his discourses you will find it is a solid Jones' concoction in little more than twenty-four hours after that by the power of God he was regenerated and has since stood as whom a man. Henry Ward Beecher always posed as a fastidious gentleman, a scholar, a wit, a sage, a philosopher, a wise man, a teacher, a writer, and with uncleanness—"anything that religion for a cloak. Sam Jones has felt the sting of sin. He is prepared to deal with it. The only difference between the two is that Beecher is rich, poor, high and low. The same difference between the two is that Beecher is a wise man, while Dr. Witte is a simpleton.

Sam Jones freely admits he was half-hog and has since stood as whom a man. Henry Ward Beecher always posed as a fastidious gentleman, a scholar, a wit, a sage, a philosopher, a wise man, a teacher, a writer, and with uncleanness—"anything that religion for a cloak. Sam Jones has felt the sting of sin. He is prepared to deal with it. The only difference between the two is that Beecher is rich, poor, high and low. The same difference between the two is that Beecher is a wise man, while Dr. Witte is a simpleton.

BRECKENRIDGE NEWS.

WEDNESDAY, AUGUST 10, 1898,

Old Abolitionist Dead.

The last of the old-time abolition agitators is gone. Parker Pillsbury died at Concord, N. H., a few days ago at the age of 89. He enlisted all other lecturing agents of the New England anti-slavery societies. In 1835 Mr. Pillsbury made a speech in Boston in support of the anti-slavery movement. His was one of "the wedge-hammers of the abolitionists." Mrs. Pillsbury died last February, aged 82.

Dangerous Drinking Water.

Death finds in lapset Water. It breeds disease often in epidemic form. The first symptom is looseness of the bowels. These diseases are checked by taking Foley's Colic Cure—A. R. Fisher, Cloverport; R. A. Shallen, Stephenport; Gordon & Haynes, Patleville; E. A. Witt, Hardinsburg.

ARE STARVING.

People of Unengaged Havens in Terrible Strain.

The Press quotes from a letter written by the wife of a wealthy Cuban to her sister in New York. It reached New York by way of Vera Cruz, Mexico, and was mailed in Havana more than three weeks ago. The writer says: "The little food we have had at home is buried in the earth, so we have to go outside to see if we find any uprooted roots so that the starving people can not look in through the windows and see us. When we are in the dining room they would break in and snatch our food away. We know if they were to see us eating now they would take away our last piece of bread and meat. It is unsafe for any one to be caught eating."

One minute Congh恩ures people by its quick cure and children may take it in large quantities without the loss of danger. It has won for itself the best reputation of any preparation used to-day for colds, croup, tickling in the throat or obstinate coughs—short & Hayes.

TO OLD POINT COMFORT AND THE SEA SHORE, AUGUST 16TH.

THE GRANDEST OF ALL TRIPS.

The regular Annual Excursion to Old Point Comfort is to be held on Saturday evening, W. A. Phillips, S. P. A., will be in charge. The boat will leave at 7 P.M. via the C. & O. Railways, from Cloverport on regular trains, leaving at 4:30 p.m., consisting with S. A. Phillips, Captain, and his crew. The boat leaves for Old Point about 8:30 P.M. The round trip to Old Point Comfort is only \$1.00 per person. The fares are good and August 1st, with stop-over privileges.

This trip surprises many offered the irregular public, and offers many advantages. Greatly reduced rates are given to all passengers who are surf-boating, ocean voyage, palatial hotel entertainment and a visit to the capital, if desired.

Everyone is invited and company will be had in aid of the excursion. Cheats of all kinds of racing between Richmond and Clinton Force, will be given, entitling those who desire to visit Lynchburg, Nat. and Buena Vista.

Sleeping car rates will be \$4.00 for birth, Louisville to Old Point, to be occupied by one or two persons, and \$4.00 extra for each additional person. The boat will be made to dock to W. A. Phillips, S. P. A., Hopkinsville, Ky. For further particulars, address as above or call on agent L. H. St. L. Railways.

YANKEE INGENUITY.

How Candy Scared Enemies With Wadd-ee-Caease.

From the New Orleans Times-Democrat. A Confederate veteran who fought at Fort Blakely read the other day of the daring deed used by the Spaniards around Santiago de Cuba to humbling the American troops.

"Ah," said he, "that reminds me of old times. It also reminds me that wooden guns have been known to serve better purposes than making believe."

"Wooden guns did deadly work before Fort Blakely," said the Yankee, "fixed them up and they shot just as well if they had been manufactured of iron. The opposing lines were 500 yards apart. The Confederates were behind the walls of the fort and the war was strongly entrenched."

"I am a Yankee," said the veteran, "and I am still a soldier. What he did was to manufacture 100 mortars from black gum trees. Black gun trees grow everywhere in the vicinity. He bored them out, put iron bands around them and fired 8-inch shells furnished by Farragut's fleet. The lines were so close that light charges sufficed and the tampions of the shells did all that was asked of them."

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is strange, however, that the disease is being treated in such a haphazard manner. "It is to cure that I was a terrible sufferer from Yellow Jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending this to every person suffering from this terrible malady. I am greatly yours, M. A. Hogan, Lexington, Ky."

Sold by Short & Hayes, druggists.

A Husband's Reprof.

After the day on which Blamark was shot at (May 7, 1898) by Karl Blind, his wife said: "If I were in heaven and saw the villain standing on the top of a ladder leaning down to hell I would have no hesitation in giving him a push."

"Indeed you do," replied Blamark, "you would not be in heaven yourself with such thoughts as those."

UNCLE SAM'S NEW ISLAND.

Porto Rico, Chief Cities, its Population and Resources.

The Island is 3,668 Miles in Extent—Limited Railroad and Telegraph Facilities.

The Island of Porto Rico is 3,668 square miles in extent. It is ninety-five miles long and thirty-five miles broad, and has a population, according to the census of 1890, of 843,067, which is more than 300,000 more than there are in the United States. There are 157 miles of railway and about 160 miles of wagon road. All other traveling and transportation must be done by mules and riding horses. There are 470 miles of telegraph lines and telephone systems in the principal cities. In 1890 the total value of exports was \$15,000, and of exports \$14,000,000. In 1897 the United States sent imports to the Island to the value of \$2,181,021, and received exports valued at \$1,998,889. In 1898 the exports to Spain were \$5,428,769, and there was received from Spain \$7,328,896. There is a large tobacco crop raised on the Island.

The principal city is San Juan. The harbor is one of the finest in the world, both for size and depth. The harbor entrance is one of great difficulty, except under the most favorable conditions, but a broad channel has been dredged through the rocks.

The smaller island is two and a quarter miles long and averages a quarter of a mile in width. The city is a complete walled town, with portcullis, moat, gate and battlements. Although over 250 years old, it is in good condition.

The principal town is Ponce, situated upon a small island connected with the mainland by a bridge. At the other end of it are the high cliffs which support El Morro Castle. The harbor entrance is one of great difficulty, except under the most favorable conditions, but a broad channel has been dredged through the rocks.

The smaller island is two and a quarter miles long and averages a quarter of a mile in width. The city is a complete walled town, with portcullis, moat, gate and battlements. Although over 250 years old, it is in good condition.

The capital of the department, Humacao, is nine miles distant, and has 4,000 inhabitants. The district comprising more than 5,000.

Aroyo is a resort of 1,200 inhabitants. The annual exports to the United States average 7,000 to 10,000 bushels of sugar, 2,000 to 5,000 casks of molasses and fifty to 100 casks and barrels of rum.

You invite disappointment when you experiment. Dr. Witt's Little Early Risers are pleasant, easy, though little pills. They cure constipation and sick headache just as easy as you take them.—Short & Hayes.

OLD GREENBACK

An Interesting Relief That Recalled the War.

From Washington Post.

There was paid over the counter at the Treasury Department Monday a bill of \$1000. I think I know of no kind of bill I have ever seen like it. It was worn completely through in places, though it had been in the possession of the man who presented it almost since its issue. It bore in gold letters the words "U.S. Treasury Note" and "Interest Due December 31, 1894."

Finally 2 bottles of Blood and Nerve Tonic completely restored me.

I thank you for making it possible to get good blood and nerve tonic for good.

I feel I owe my life to you.

CHARLES C. MARTIN,

Prescription Pharmacist,

Next door above Payne & Co's, Cloverport.

Life was a Burden
Nearly Distracted—Doctors and Medicine Failed.
CURED BY TWO BOTTLES.

MRS. J. T. COOK.

DENVER, N. Y., May 6, 1894.

Dr. M. F. FENNER, Fredonia, N. Y.

Dear Sirs: Will millions and persons

like myself be burdened me. Look

around and see how many have terrible

headaches, both nervous and bilious.

Doctors and remedies had failed to benefit me.

Finally 2 bottles of Blood and Nerve Tonic completely

restored me.

I thank you for making it possible to get good

blood and nerve tonic for good.

I feel I owe my life to you.

PROGRESS OF THE SOUTH.

THE SOUTH.

Twenty Years Experience.

Her Wonderful Development Since the Civil War.

A Brilliant Future Hovering up Before Her.

All Legal Matters Given Prompt Attention.

A pamphlet entitled "Facts About the South," by the author of "Southern Progressives" has given a highly encouraging view of the industrial development of the Southern States. In 1890 the assessed value of property in the South was \$5,280,000,000. In spite of the enormous losses of the Civil War, the value in 1890 had increased to \$7,600,000,000, and to \$11,400,000,000 in 1895. The assessed value of agricultural interests in 1895 was \$318,000,000, and the farm products in the same year amounted to \$773,000,000, a gross revenue upon the capital of 24 per cent, or about double the percentage of farming in the other sections of the country. Farm products in 1895 were \$100,000,000, and the assessed value of agricultural interests in the South in 1895 was \$318,000,000. The present annual value of Southern agricultural products is placed at \$60,000,000, and the value of manufactured products from \$457,454,777 to \$607,945,045 in 1895. Manufacturing, however, is not a Southern industry, but a Northern industry. Southern coal and iron are destined to play an important part in the world's affairs. West Virginia's coal fields alone are larger than those of Great Britain. It is estimated that the Southern products of mines and manufactures amount to \$1,000,000,000, which is equivalent to the gross market for a single year of \$10,000,000,000. Since 1880 over 20,000 miles of new railroad have been built in the South. In addition to be reckoned a vast store of national wealth, such as standing timber. One-half of all railroad mileage in the United States is in the South, and the mineral resources of that section are mainly untouched and their future development will doubtless go beyond the largest estimates that have been made.

Whatever may be the value of the new possessions soon to be added to this country, the South can measure them match for match.

It is the experience of the navy that the South is the most dangerous place to be in, because of the six inch shell makes it a dangerous projectile for armored ships.

The force of the shells driven by high explosives is enormous. The suddenness of the impact has something to do with the range of the shot. The shot, however, is not always present to imprint the outline of the gun and the high explosive charges are convenient.

The shells pass easily through the armor-plated hulls of the Spanish ships.

A steamer congi or steaming in the throat yields to Gun Minute Couch Graft. Harmless in effect, touches the right spot, reliable and just what is wanted. It acts at once.—Short & Hayes.

HEAVY ENGINE.

The Great Railway Machine of the British Isles

Much interest was centered in the trials at Grantham of what is asserted to be the heaviest railway engine in the British Isles. It has been made for the Great Northern Railway at that distance. It is 100 feet long, 12 feet wide, 10 feet high, 10 tons in weight, and has a 100 horse power.

The engine is built of steel and has a 200 horse power motor, which is connected with the engine by a belt.

The engine is built of steel and has a 200 horse power motor, which is connected with the engine by a belt.

BRECKENRIDGE NEWS.

WEDNESDAY, AUGUST 10, 1860.

CHENAULT.

Theodiers are doing well here, Iain would do the same quite a little good.

The Misses Coddy, of Louisville, are visiting Miss Rose Cunningham.

Misses Mary and Grace Allen, of Guyville, were the guests of Misses Monday, Tuesday.

Guy Breche is spending a few days at home. Guy is a great lover of the country.

Miss Grace Allan has gone to Roma, Ind., to visit her aunt, Mrs. J. H. Green.

Better watch your watermelons if you don't you will not even have "vines" to show for your work.

Miss Ennie Crosson, of Cloverport, is the guest of Miss Zelpha Frymire. Ennie is a great favorite.

Prof. Eugene Gilliland returned home Monday after spending a few days with his cousin, Miss Kate Allen.

Wonder who it was drove up to Mr. A. G. M. on Saturday last week with a fine double ride? Someone driving for his health I suppose.

Bro. Gundiff had a meeting at the M. E. church South beginning Aug. 8, and continuing until the second Sunday. All are invited to attend.

Quite a number of this place attended the picnic at Audley's Saturday, among whom were: Misses Dora Frymire, Ennie Crosson, Rita May, Kate, Mary, Alice, Anna, Rose, Mary Birch, George Allen, Modie Stalman, Zeppie and Pearl Frymire, Messrs. Eugene Gilliland, Fred, Frymire, Edward Stalman, Will, Frymire, Guy Birch, John Frymire and Richard Stalman. All reported a grand time.

DeWitt's Witch Hazel Salve has the largest amount of salsify in the world.

This fact and its merits has led dishonest people to attempt to counterfeit it. Look out for the man who attempts to deceive you when you call for DeWitt's Witch Hazel Salve the great pile cure.—Short & Hayes.

WON THE DINNER.

A Good Story of Scotland's Favorite Peat.

There is a story told of Robert Burns in his youth, says the Newcastle (Eng.) Weekly Chronicle. Burns was living in the town of Ayr and was considered by all to be more than a local reputation as a poet. One day he was passing through the main street of the town, and saw two strangers sitting at one of the inn windows. With idle curiosity he stopped to look at them. Seeing him and thinking that that rustic upstart was looking down upon them while waiting, the strangers called him in and asked him to dine with them. Burns readily accepted the invitation, and proved a merry, enterprising guest.

When dinner was finally finished, the strangers suggested that each should try his hand at a poem. Robert Burns, who failed to write a rhyme should pay for dinner. They fell silent in this challenge, believing that their rustic guest would pay for the meal. The rhymes were written, and Burns read the following: "I Johnny Peep, saw two sheep; two sheep saw me, and a sheep said, 'I am a sheep'; then said I to my sheep and I, Johnny Peep, go free."

The strangers' astonishment was great, and they both exclaimed: "Who are you? You must be Robbie Burns?"

"A Howling Success."

Wherever properly introduced, Dr. Caldwell's Syrup of Pepsin, as a cure for constipation, has met with a phenomenal success. Many druggists cannot say enough in praise of its merits, as well as its popularity with the people. In 100 trials and also in 500 and \$100 nissia. Of C. M. Martin.

Passing of the Aborigines.

At the close of the last century there were supposed to be 1,000,000 aborigines in Australia. There are now less than 100,000 and among them are still some cannibals.

For Mothers!

Two classes of dangers of child-birth can be avoided. Winifred Cardell, a practical mother, gives the best advice and puts them in words to do their work perfectly. The mothers make pregnancy less painful, shorten labors and hasten recovery after child-birth. Every woman bear strong healthy children.

Mr. ELIFFE'S

Wine of Cardui.

has also brought happiness to thousands of houses barren for years. A few doses often bring joy to sorrowing hearts that long for a darling. No woman should neglect to try it for this trouble. It cures many cases of sterility. All drug stores sell Wines of Cardui.

For wine in cases requiring special directions, see Dr. Eliffe's "Ladies' Advisory Department," The Ladies' Medical Co., Cincinnati, Tenn.

Mr. LOUISA HALE,

of Jefferson, Ga., says:

"When I first took Wine of Cardui I could not conceive how it could not have any children. Since then I have had a child."

Breckenridge Boy Doing Duty at Ft. Hancock, N. Y.

Ha Tells of The Daily Round of Garrison Life.

HOW BATTERIES ARE MANNED.

Fr. HANCOCK, N. Y., July 24, 1860.—

Data a Envoy.—Have contemplated writing a short article on some of my experiences and some of the curiosities which I have seen, thinking that it might be of interest to some of the readers of the paper.

When You Take Your Vacation

the most necessary article to have with you (after your pocket book) is a bottle of Foley's Olio Colic. It is an absolute medicine for all kinds of bowel trouble.

It begins the beginning will go back to the recruiting office at Chicago where I enlisted the 14th day of April and the next day boarded the train and was speeded over the Erie Rail road enroute to Ft. Hamilton, N. Y., where I was detailed to the 1st Battalion 1st Regt. of Cavalry soldiers. The 1st Cavalry Sam I view that we have on the trip, there is one which struck me very favorably and carried me back in my imagination to the beautiful in Kentucky. This scene was in Pennsylvania. There were high rocky protuberances from the side, leaving scattered around over the ground. There were the sink-holes with ground hogs sitting on the edge ready to disappear at the first start. There were the farms houses surrounded by the outer buildings and enclosed everything in a fence. The fence was made of logs.

It is a picture of Kentucky home, but soon this view was passed and we emerge into the more mountainous portion of the state. For miles we ran parallel with the Erie canal which is noted for its length and after a tiresome ride of twenty-nine miles it is quite a relief to the brain to think about "all for Jersey City."

Having arrived at Ft. Hamilton I was assigned to battery H of the 4th artillery which is one of the two new regiments that were formed on the eve of the war. Our regiment is scattered to six parts of the country. Three are in the West, two at Forts Wayne, one at Ft. Hancock. The latter battery M to which I belong has charge of the two inch motor battery and also drive mine gun.

Our battery is divided into detachments of twelve men, ten cannoneers, a gunner and the chief of the detachment. Twelve is the number required to man our gun.

I belong to the second detachment under command of Sergeant Hock. My battery number is four and detachment three. We drift along about a day from 7 a. m. to 8 and from 9 to 11 and in the afternoon we clean the motors which take about an hour. At the present we drift the first hour alternately on the motors and with rifles. We have the latest improved Krug-Jorgenson rifles. They are fine and superior to the Musers which we left to finish.

There are some pretty houses here. The people here are very nice to us, they have lots of ice water out on the streets for us and some of the boys are telling that they have asked of them in to eat.

We will forget my trip from Chickamauga Park up here. We passed through Tennesse, North Carolina and Virginia. We went direct through three of these states and in North Carolina there are some of the grandest mountains I ever saw. We came over the mountains but the daily Musers with the shells which were flying through the air in the vicinity of your head, it made a little too swift and I can't say that I am dead struck on war.

The Fourth of July, although it rained all day, was a glorious victory.

The battle of Bull Run was fought on the 21st of July, 1861.

There is a rumor that we are going to Porto Rico, but we have been disappointed so often that we no longer credit rumors and when the order comes to move and we are on the boat and actually steaming out to sea, then I will be sure to be ready.

At Ft. Hamilton our former post, is a much more beautiful place than this, but not as strongly fortified.

The defenses there consist of six, eight and ten inch guns and just across the bay, which is very narrow at that place, is the fort of Mc Clellan, which is a fort which a brave man who would attempt it, without a pilot who was familiar with it, it would be riddled with shells, which would be fired from both forts after such short range and aimed by the best gunners in the world that the result can be easily foreseen.

The fort of Mc Clellan seems a sponge at it would be nothing short of a miracle that a vessel could get within range of it and menacingly aim her guns at the tall buildings at Correra once it has passed from his broad flag ship, Vicary, the wreck of which now lies rotted on the bottom of the bay.

The defences on Sandy Hook consist of six ten inch guns, two of which are operated by hydraulic power and electrically controlled, two twelve inch and we can hear the rattle of machinery as they are working on fortifications for two more ten inch guns. Then there are the two twelve inch guns, which are the best, the gunboats gun and also the twelve inch motors sixteen in number. The motors throw a projectile weighing 1000 pounds, the distance of six miles and are especially designed to reach the deck of a ship which is the least protected part of a vessel.

There are some of the dynamite guns.

These tables are put up in the shape of a kidney.

We have reduced prices on lemons so that ladies who buy them save money—Squires.

Born to the wife of Carl Benton, Aug. 3, a handsome little girl, Mary Elizabeth Porter.

Nothing is more popular than lemons so that ladies who buy them save money—Squires.

The ripest, richest, juiciest and sweetest melons in the city are handled by Julius Sipple.

Orrville Polk, son of Graham Polk, Toliverport, Ind., is afflicted with bronchial trouble.

The Breckinridge Planning Mill is under full operation and they are away behind with their orders.

Sipple's light bread, graham bread and rye-bread cannot be beaten. Try the different varieties.

For a few cents a loaf of rye-bread should try a square can of the bread offered by Gregory & Gleason.

Down shooting has already commenced but sportmen report that the birds are not unusually plentiful this year.

Save your broad bags—those on United States broad—over one hundred entitles you to a useful present at Squires.

Conrad Sipple has purchased the Gina Brown property on the school house hill and moved into the house Monday.

While the keydold stage-door goods are in evidence, buy now while they are going to a year's ownership at Sipple's.

There is an unusually large crop of grapes in this section this year and the fruit is of a very fine flavor and growth.

I have resumed the practice off medicine. Can be readily found, or orders left at Druggists or Residence—B. T. Rafferty.

Walter Keld, who is an employee of the "Henderson Route" at the shops in this city, is quite ill at his parents' home in Hott's Boston.

Many shooting and two children have returned to Frankfort, after spending several weeks with her mother, Mrs. Minor in this division.

Harry Morrison, fireman on the Henderson Route, had his foot mangled while at work last week. He is now able to be out on crutches.

The schools opened Monday, Prof. Foyston and his assistant, Miss Virginia, having arranged for holding it this term. Attendance 64.

A well-wielded foot is a thing of beauty. Our line of Oxfords contains many beautiful samples. Mori-wear Oxford shoes at Sibley's.

Gardner Agnew, of Holt, has four acres of tobacco that is in splendid condition. Mr. Agnew says that worms are not bothering the crop at all this year.

The plants at Belmont Saturday was in a state of great financial success. The proprietors did all that could be done to make those who attended spend an enjoyable day.

L. D. Addison's steam threshing machine passed through the city the fore part of the week. It has threshed 30,000 bushels of what this far and will close out for the season this week.

Mr. James England, of Tubington, 2nd, has a new building and a half load of water melons. The principal variety cultivated in that section is the noted "Dark Lee Kind." He said the crop was beyond everyone's expectation.

Public Health Good.
The sun seems to be good for the health of the carpet fad, Thursday night, was a splendid success. A large crowd was present and male and other amusements served to pass the evening away in a very pleasant neare.

Splendid Prospects.
L. D. Addison, of Addison, is a good a farmer as he business man and has one of the most productive farms in the bottom. One tract of seven and a half acres will produce sixty bushels of corn to the acre.

Beneficial.

William Sibley came home Wednesday night from Hot Springs, Ark. He was there some ten weeks for his health and the treatment received was in every way beneficial.

and the quality far superior to this past season.

H. V. Duncan has the best vine of tomatoes so far seen. On one stem there are five extra large tomatoes. He does not remember the variety, but says they are superior to any of his raising here before.

Henry Stader returned from an extensive trip through Indiana country. The day, his brother was defeated for the nomination for judge of Hendon county in the Democratic primaries by only a few votes.

The farmers in the vicinity of Addison, was put in operation this week a planter to grow cotton that is equal to the best produced in the Ohio valley.

The mill has been thoroughly overhauled and remodeled. New machinery has been added and the capacity of the mill increased to fifty barrels of flour daily.

The machinery added includes a new grader equipped with scalping, grading and flouring claws and a new stand of rolls.

The new machinery has been added throughout with new bottom cloths and the mill has been repaired to a new diagram.

It is a model plant in every respect. The work of remodeling the mill has been done by Burke Brothers, superintendents of the construction department of the Marion & Novice Milling Company, of Indianapolis, Ind.

Mr. Richardson is one of the most skillful millwrights in the United States. In the course of his work he has made many trips to Europe, and has met most of the great men in the art and light of the moon.

He raised twenty bushels of wheat and the millers say that the grain is the best that ever came to market, to the acre on hill land, this year. He always rakes fine wheat. In fact his product is excellent. For years he has been the favorite miller among his neighbors.

A large amount of wheat is being received daily for the local milling firm.

Poor and Weak

Catarrh and Bronchial Trouble—
Had no Appetite—Now Better in
Every Way—A Delicate Child.

"Some time since I took a sudden cold and could not get rid of it. Being subject to catarrh and bronchial trouble, I lost my appetite and grew poor and weak and I did not feel like work. I began taking Hood's Parapain, and after a short time my appetite came back, I slept well, had a good appetite and I was better in every way. Last spring I was not feeling well, I had no appetite and no strength, but I began to take Hood's Parapain and soon felt more like work. My little nephew was a delicate child and had a humor which troubled me, so he could not eat or sleep. He has had a few bouts of bronchitis, especially now, and he has a good appetite and is able to sleep." Miss Anna J. Freeman, South Duxbury, Mass.

Hood's Sarapis

Is the One True Blood Purifier. All druggists, & Hood's Pills are the best after-dinner pills, and direction, 25¢.

Mr. John Jordan, his wife, and son, are spending a few days of vacation.

My little nephew was a delicate child and had a humor which troubled me, so he could not eat or sleep. He has had a few bouts of bronchitis, especially now, and he has a good appetite and is able to sleep." Miss Anna J. Freeman, South Duxbury, Mass.

Old man Jordan who has been living here with his son Jones Jordan, for some weeks, died last Thursday night. His remains were taken to Lawrence county.

Misses Herbert Beard, Sherman Ball, John Hawley, Mrs. Lewis Beard and Hallie Moonman went to Mr. John Alexander's last Monday to spend a few days.
